

DDI 705 82

18 January 1982

NOTE FOR: DDI

Attached are just three recent examples of NODIS cables that would have been very useful to us but were not released from State. (We could provide a variety of examples from the other divisions.)

I asked [] to do a statistical review of NODIS. He indicated in November there was a real fall off in the number of NODIS reports received. Presumably he will send this directly to you, but if it comes to me, I will pass it on. ➔
